Welcome

WorkSource Montgomery thanks you for your participation in this survey of community-based organizations that serve as an adult resource for services within Montgomery County. The goal of this project and survey is to develop an adult services asset map to document our community's existing resources.

Once this initial data collection survey is closed, a comprehensive adult services digital resource community asset map will be available and shared on our website to better serve all our constituents within the county.

This updated regional community asset map resource will inventory and detail your organization's key strengths and services along with your pertinent contact information.

This survey should take 5 to 10 minutes to complete.
